Development Information Item

PROJECT STATUS

The construction is progressing well. In order to accommodate the new interior layout, the interior drywall system was installed early. The exterior envelope is nearly complete, with the window curtain wall system installed. Mechanical and Electrical systems are being roughed in. The interior office area is continuing on schedule and will be ready to move into in December.

efforts on the exterior envelope of the new dining facility in Fairbanks are progressing well. The exterior framing is complete. The window curtain wall system has been installed. Mechanical and Electrical systems are being roughed in. The interior office area is continuing on schedule and will be ready to move into in December.
