

UAF Toolik Field Station Lease Information Item

BACKGROUND

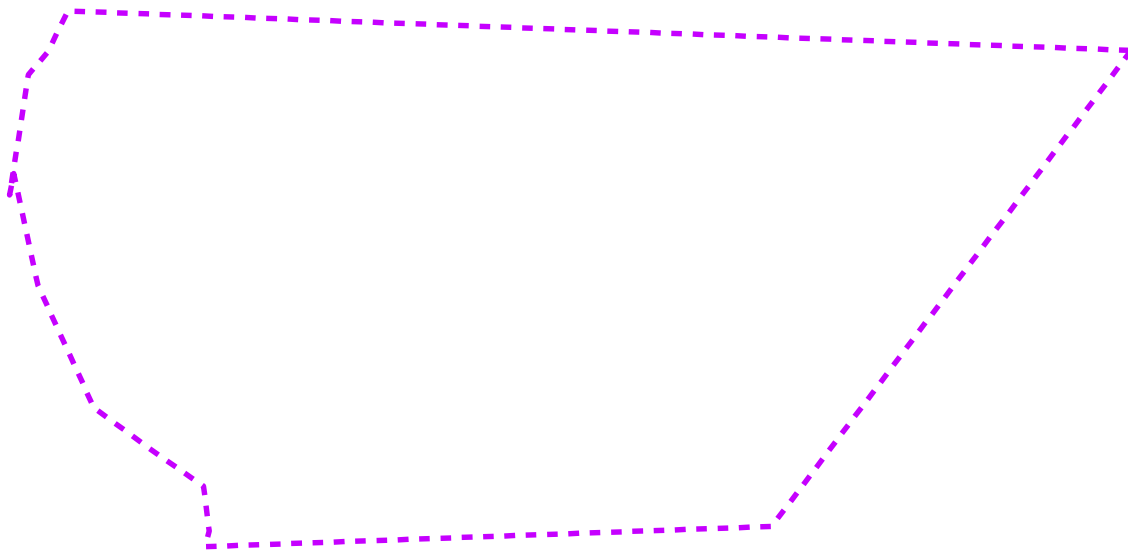

The Toolik Field Station was established by the University of Alaska Fairbanks, Institute of Arctic Biology in 1975 as a site for integrated research in atmospheric, aquatic, and terrestrial systems on federal land. UAF Researchers chose the site for unique access to different arctic tundra and aquatic environments. A 20-year lease between the Bureau of Land Management (BLM) and the University of Alaska was entered into on June 28, 1994 and will terminate June 28, 2014. The lease area encompasses approximately 24,000 acres (UA84 9)-5.5-7.8(ear)5.4(lease bet)-5.9(w [(eTc .0 Tw [(rme2ear)-5.7(xca(24Ko ftrm
