External Credit Transfers from WICHE Institutions to UA

In 2011, the Western Interstate Commission for Higher Education (WICHE) launched a new project known as the Inte Passport Initiative which looks to improve graduation rates among the institutions that are part of WICHE by making it for student to transfer credit hours from one university to another, thereby preventing students from having to retake co Instead of having courses transfer on a course by course basis, courses will be transferred as learning outcome bas This will make the transfer process easier because it will no longer be necessary to deal with each course separ evaluate how joining the Interstate Passport Initiative might impact UA, a first step is to look at credit transfer activity.

On average, around 16 percent of students attempting to transfer credits to UA from outside universities do so from W institutions(See Appendix 1 for a list of all WICHE institutions from which UA students have received transfer credits in last five years.) Over this time, an average of 80 percent of courses and 71 percent of credit hours from WICHE insti successfully transferred to UA. Credits from WICHE schools have a higher successful transfer rate than credits fr
